# ST. IGNATIUS COLLEGE

VAN NESS AVENUE, BET. HAYES AND GROVE,  
SAN FRANCISCO, CAL.

THIS institution, conducted by the Fathers of the Society of Jesus, was opened for the reception of students on the 15th of October, 1855. On the 30th of April, 1859, it was incorporated and empowered to confer Degrees and Academical Honors in all the learned professions, and to exercise all the rights and privileges common to any other literary institution in the United States. The design of this institution is to give a thorough

**English, Classical, Mathematical and Philosophical**

## ➤ EDUCATION. ◀

**IT IS INTENDED FOR DAY SCHOLARS ONLY.**

The course of Studies embraces the Doctrine and Evidences of the Catholic Religion: the Greek, Latin and English Languages, Poetry, Rhetoric, Elocution, History, Geography, Arithmetic, Book-keeping, Mathematics, Chemistry, Mental, Moral and Natural Philosophy. The study of the French, German and Spanish Languages and Practical Telegraphy is optional.

Besides the Classical, there is a Preparatory and Elementary Department for the younger students. Its object is to qualify the pupil for the higher studies.

This Institution, provided with a full staff of Professors, presents the highest advantages for the mental and moral training of the students.

The College having been removed in January, 1880, to its new and permanent location in one of the most eligible parts of the city, extends over a whole square, bounded by Grove, Franklin and Hayes streets and Van Ness Avenue, and possesses the most ample accommodations and improved conveniences for 1,200 students.

The new College Buildings are divided into three principal stories for the three separate departments: the Preparatory; the Literary and Commercial; and the Philosophical and Scientific.

Besides the required Reception Rooms and Offices, large and lofty halls and stairways; several Library Rooms and Debating Halls; distinct play-grounds with covered walks and porticoes for the larger and smaller students, the buildings contain a full complement of very capacious school-rooms, well-lighted and ventilated, and furnished with the most approved modern conveniences. They possess also a large and well-appointed Chapel for the Religious Exercises, and a College Hall 100x145 feet internal dimensions, with spacious platform and stage suitably furnished and arranged for scholastic Exhibitions, Dramatic representations, lectures and other public exercises.

The Scientific Department contains lecture rooms for Physics and Chemistry; a Chemical laboratory and an extensive cabinet of Physics; rooms for qualitative and quantitative Analysis; Engine-rooms with Magneto-Electric machines; Battery rooms; complete Telegraphic stations; rooms for preparations balances, spectroscopic studies, and other scientific experiments and investigations; Museum of Mineralogy, Geology and collections of natural objects and curiosities of different kinds; and it is furnished with a very large and choice collection of Philosophical and Chemical Apparatus ordered from the best constructors of Europe and America, and with all that is necessary for Lecture demonstrations and experiments, for private study, and the most complete and delicate chemical analysis and manipulations.

By frequent additions of whatever can be supplied by the best modern inventions both at home and abroad, this Department has attained a very high degree of completeness and efficiency well calculated to afford to advance students a most valuable opportunity of acquiring a thorough scientific training and education.

**STUDENTS ARE RECEIVED AT ANY TIME DURING THE SEASON  
FROM JULY TO MAY.**

The Institution is open to the Public, and Visitors are always welcome.

# The Mutual Benefit Life Insurance Company,

## NEWARK, N. J.

### NONFORFEITURE PROVISIONS OF A CONVERTIBLE POLICY.

When After Two Full Annual Premiums shall have been paid on this Policy it shall cease or become void solely by the non-payment of any Premium when due, the entire net reserve value of the Policy, including Dividend Additions, by the American Experience Mortality and Interest at four per cent. yearly, less any indebtedness to the Company on this Policy, shall be applied by the Company as a Single Premium at the Company's rates published and in force at this date, either, **first**, to the purchase of non-participating term insurance for the full amount insured by this policy, or, **second**, upon the written application by the owner of this Policy and the surrender thereof to the Company at Newark within three months from such non-payment of Premium, to the purchase of a non-participating Paid-up Policy payable at the time this Policy would be payable if continued in force. Both kinds of insurance aforesaid will be subject to the same conditions, except as to payment of Premiums, as those of this Policy. No part, however, of such term insurance shall be due or payable unless satisfactory proofs of death be furnished to the Company within one year after death; and if death shall occur within three years after such non-payment of premium, and during such term of insurance, there shall be deducted from the amount payable the sum of all the Premiums that would have become due on this Policy if it had continued in force.

**And**, after two full years' Premiums shall have been paid, the Company will, on surrender of this Policy fully receipted while in force or within three months from time of lapse, allow as a Cash Surrender Value for the same, a sum not less than the full reserve value of the Policy, exclusive of Dividend Additions, computed by the above-named standard, deducting therefrom any indebtedness to the Company on this Policy.

### THE FOLLOWING TABLE

CADENAU & CO.

728 GOLDEN GATE AVENUE

Families and Social Clubs intending to give Parties and Entertainments at their houses or outside, will surely find it to their benefit to favor us with a personal visit and see for themselves, and be convinced that by giving us their orders in full they will find themselves a world of Trouble, Worry and Excitement, which frequently unite to ruin the proper enjoyment of their parties afterwards, and also, in most cases, cost them more money.

Constantly on hand. Varied Ice Creams, Plombiere, Neapolitan Sorbettes, Wine  
Jellies, also, to order, Mayonnaise Salades, Terrapins, Boned Turkey, Frogs, Petees.  
Oysters in any style, Etc., Etc.

P. S.—We also take orders for Flowers, Decorations, Chinese and Japanese Ornaments, Gas Chandeliers and Fixtures, Patent Hat Racks, Mirrors, etc., etc.

Turk Street or McAllister Street Cars will take you to within one block from home. Also the Sutter Street System, with its different transfers to within three blocks of Corner Larkin Street and Golden Gate Avenue.

# DR. GEO. W. LEEK

Has his Method of

## Extracting Any Tooth Without Pain or Sleep

——(PATENTED)——

And will prosecute both patient and dentist if the dentist tells the patient it is **Dr. Leek's Method**, or similar, or leads the patient to believe that any part of **Dr. Leek's Method** is being used in drawing the tooth painlessly.

If my method is not the only one that proves entirely satisfactory, why are the dentists so jealous? why do they claim to do as I do? and why do traveling dentists claim to be from my office, when, in reality, I have never seen them?

Professional men are never jealous of members beneath them only their superiors.

Fifteen men are constantly kept busy day and night—all being experts in their specialty.

A whole building and fifteen operators occupying it constitutes the largest dental office in the world.

Every conceivable kind of dental work done, with or without plates.

Continuous gum plates as natural as life, that will not poison your mouth as does rubber plates. Crown work and beautiful gold filling are not excelled.

**MANY FIRST PRIZES AND DIPLOMAS**

——FOR THE——

## Best Dental Work

Adorn the Office.

Samples of all kinds of dental work kept to show customers. You are invited to call. Work reasonable and warranted.

WITH TRAP.

43

FREMONT STREET,

SAN FRANCISCO,

CAL.

WITH OFFSET.

## The Golden Gate Plug Closet.

(1.) It has a simple, strong valve, suitable for any pressure, self-closing by a genuine Phosphor Bronze Spring, acting with the pressure.

To prevent breaking and weakening of the spring, I have gone to the expense of using Phosphor Bronze Wire, which will have the desired effect.

(2.) It has a real sanitary overflow, a copper float attached to a bell of the same metal resting on the face of the brass overflow pipe, operated by the rising of the water in the closets above its level, thus absolutely preventing any escape of sewer gas even the closets being without water.

(3.) It has no dead corner, consequently no foul water will be left in the closet after the lifting of the handle. A constant rush out of the flood chambers will keep the closet and trap perfectly clean.

(4.) The plug or plunger is made in such shape as to prevent passing of rubbish into the flood chambers, resting with a soft rubber gasket on a ground heavy brass seat.

(5.) All the iron parts are dipped into boiling hot asphaltum varnish. This system is far superior to painting with a brush in order to prevent rusting.

With the above stated points, I am able to call my Closets the most perfect and cheapest in the Market.

N. B. Architects who endeavor to furnish their patrons with the most reliable goods, should not hesitate to give this closet a trial.

Tourists visiting this State cannot find a more beautiful and diversified trip. The steamers leave the ferry slip at the foot of Market street for **Saucelito**, the only seaside Resort where good bathing, boating and fishing can be found. The route from here runs along Richardson's Bay to the base of Mount Tamalpais, one of the features surrounding the Bay of San Francisco. Stopping at the station named after the mountain, the traveler will find teams ready to take him up to the top of this giant, from which a magnificent view of the Farallone Islands and the Pacific Ocean can be had. Three and a half miles from this station are the far-famed **Fairfax Picnic Grounds**; thence in three quarters of an hour **Camp Taylor** is reached, where all facilities, including Dancing Hall and Bowling Alley, for Camping and Picnic Parties can be found. From this point to **Point Reyes Station**, a distance of eight miles, splendid trout streams abound, on whose banks most beautiful spots for private camps can be found. The route then skirts for a distance of sixteen miles the Bay of Tomales, which is covered with all kinds of wild fowl. The hills surrounding this town (**Tomales**) are one vast potato field, until nearly reaching **Valley Ford**, which town is situated in the grain district of the county; thence to **Freestone**, which is the beginning of the great Redwood Forests; thence along to **Howard's Station**, from which is shipped an immense quantity of bark and wood; thence along Russian River to **Duncan's Mills**; thence to **Cazadero**, which is the present terminus of the road, and one of the loveliest spots in the State; the climate being as soft and mild as that of southern France.

The Hotels and cottages are kept by old experienced hotel keepers, thereby assuring every comfort and attention to the traveler.
